

Krishna Beharry, CIM®

Portfolio Manager

Krishna joined IAIC in 2005 as the pioneering member of what would eventually be called the Investment Counsel Portfolio Management Support Services (ICPMSS) team. He quickly evolved to become a Portfolio Manager and continues to mentor others.

Krishna obtained a BSc in both Economics and Sociology from Dalhousie University in 1998 and continues to study industry courses. In 2010, Krishna obtained the Chartered Investment Manager (CIM®) designation.

Krishna began his career as a Registered Investment Representative with a large brokerage company where he traded in North American and International Equities and Options. Krishna was responsible for trade investigations, as well as authorizing sophisticated trading activities by junior Investment Representatives. While at that firm, he was also a pioneering member of its Financial Planning platform, where he managed a team of Registered Financial Planners based in Western Canada.
