

Michael Williams, CFA®, MTax, MBA, P.Eng., PCAM

Portfolio Manager

Mike joined IAIC in 2003 as a Portfolio Manager. As a part of the growing Portfolio Management Team, Mike structures and manages portfolios and works with his team on research and investment strategy.

Mike obtained an Engineering Degree from the University of Waterloo in 1987, followed by an MBA, a Post Graduate MBA and a Master of Taxation. He holds a licence as a Professional Engineer and is a CFA charterholder.

Prior to joining IAIC, Mike worked in the energy services industry, winning a number of awards for the sales and development of multi-million-dollar contracts. As a national manager he led a team of engineers, building technical and financial solutions to facilitate the reduction of energy use for major industrial customers, school boards and hospitals. He currently sits on the Board of a publicly traded company, providing solutions to reduce the use of energy and CO² emissions.
